

Technical Requirements:

1. Finished products must undergo 100% electrical testing, with no short circuits, open circuits, intermittent contact, or other electrical defects;
2. Insulation resistance: $5M\Omega$ MIN/300V DC 0.01S;
3. Conductivity resistance: 20Ω MAX;
4. TV box or computer connected to HDTV passes 4K test;
5. All materials comply with RoHS 2.0 environmental standards;
