

DHI-ESL-BA02

ESL Rail End Cap

Introduction

The ESL Rail End Cap can be used with the ESL rail to effectively prevent the tag from falling off.

Features

Not Easy to Fall off

The shape of the cap is compatible with the part where the label clip is installed in the ESL rail, and the cap is embedded in the tank of the label clip installation part, which is firm and not easy to fall off.

Prevent Labels from Falling off

Install the rail end cap to effectively prevent the labels from falling off the end of the ESL rail.

Prevent Rails from Deforming

The main body of the ESL rail is supported and positioned to avoid deformation and extend service life.

Scene

Suitable for retail department stores, smart offices, pharmacies, medical, warehouses, logistics and more.

- Easy and convenient to install.
- Supports ESL rail and can extend the service life of the rail.
- Avoids the label falling off from both ends of the ESL rail.
